## High quality parts, when you need them.

Our used equipment inventory has always been fairly dynamic with new pieces coming through our facility. If there is a particular piece of equipment that you are looking for but have not seen let us know as we may just have the piece going through our service department.

We also have a large network that we can tap into to find the piece you are looking for if it something we do not currently have.

With lead times on new equipment being what they currently are we have been very successful in helping customers with finding good reconditioned equipment that we can get them within the time frames they need. At the end of the day our success is really invested in your success.

## Have equipment you want to upgrade or get rid of? We can help.

You can sell your machine to us, trade it towards another piece of equipment, or you can put it on consignment and let us do the work for you.
